

PATIENT ACTORS NEEDED

Please Register by December 31, 2015

The Hyde County Health Department will hold a full scale point of dispensing (POD) exercise on January 5, 2016 at Mattamuskeet Early College High School (MECHS). Health Department staff and other key leaders will practice response to a mock scenario involving a biological agent. The Health Department's role in this scenario will be to dispense medication to the public in response to the mock emergency.

We need additional participants to act as patients.

Patient actors will go through the dispensing line, fill out forms and receive a medication bottle. The first time actors go through the line they can use their real information. Each time thereafter, actors will be provided a card with information about the person they will be playing. Actors should go through the line two or three times. It is a very simple process.

Lunch will be provided to all participants after the exercise.

Patient actors must register. So that we can prepare for the event and for lunch that day, please fill out the simple patient registration form by visiting <https://www.surveymonkey.com/r/3LQW65C> , faxing the attached form to Melissa Sadler at 252-926-0021 or by calling Misty Gibbs at 252-542-0358. **Please register by December 31, 2015.**

Actors should arrive at MECHS at 10 AM on January 5 and will be released at approximately 1 PM. Lunch is provided during that time period.

If you have any questions, please feel free to contact Misty Gibbs at mgibbs@hydehealth.com or via phone at 252-542-0358.

Thank you for helping Hyde County to be a safer community!
